What is Metadata anyway? 🤗

In simple terms, metadata is data about data.

23-07-2013	Astun Technology	Transport networks	society	Aberdeen, Scotland	Aberdeen, Cults	On July 23, 2013, Astun Technology created a descriptive dataset on transport networks in Aberdeen, Scotland. The dataset focuses on the smallest geographic area that includes all locations in Aberdeen, including Cults and Tree.	Transport Networks in Aberdeen, Scotland: Cults Tree			
						This dataset provides information on protected sites in the United Kingdom, specifically focusing on East Lothian Historic County. Created on 23-07-2013, it includes data on the smallest geographic				

area that encompasses all the listed locations. The dataset also

incorporates information on historic counties and boundary lines.
